The College of Engineering

Non-Tenure-Track Lecturer Positions in Engineering

The College of Engineering at the University of Georgia (UGA) invites applications for multiple non-tenure-track Lecturer positions effective January 8, 2016 or later. The College of Engineering undergraduate program is experiencing an unprecedented growth and the primary duty of the selected candidate will be to teach 12 credit hours per semester. Successful applicants must be able to teach courses in engineering related to visualization and computer programming/methods. Candidates proficient in AutoCAD and MATLAB are strongly encouraged to apply. A Ph.D. in Engineering is required. The candidate’s engineering degree(s) must be in an area related to the specific teaching areas listed earlier. Position responsibilities include effective classroom teaching of undergraduate courses, laboratory supervision, mentoring undergraduate engineering students, and working with other faculty on innovative teaching methods within the college’s growing instructional programs. Effective communication skills are required.

About the College of Engineering: Described as a college without boundaries, UGA’s College of Engineering, formed on July 1, 2012, reflects a new paradigm for interdisciplinary engineering education that fosters engineering education in a liberal arts environment and research in areas inspired to solve real-world problems. While engineering is a UGA tradition dating back to the 1850’s, in the modern era, the rapidly expanding UGA engineering program focuses on opportunities for learning, research and outreach at the confluence of disciplines. The College faculty are not partitioned into departments. This open structure provides an unrestricted environment for collaborations within and outside of typical engineering disciplines. The College offers eight undergraduate and seven graduate engineering degree programs in all engineering fields. Additional information is available at http://www.engr.uga.edu/.

The first state-chartered university in the country, this land grant and sea grant research university is located in Athens, GA, about 60 miles from Atlanta, with 35,000 students, enrolled in 17 schools and colleges, and 1800 faculty. For many reasons, Athens is consistently voted among the best municipalities in America. http://www.forbes.com/places/ga/athens/; http://www.athensclarkecounty.com/.

Application Procedure: Please submit applications at http://facultyjobs.uga.edu/postings/318. Questions related to the positions may be directed to Ramana Pidaparti, Ph.D., Associate Dean for Academic Programs, Email: rmparti@uga.edu; Telephone: (706) 542-4057.

Complete applications received by October 19, 2015 are assured of consideration.
